Alright, so let's do a thread on what the fuck just happened in Georgia tonight. Unless something changes, it sure looks like Raphael Warnock and Jon Ossoff will be Georgia's senators in the 117th Congress. With that in mind, let's litigate this disaster.

Before saying anything else, we should state that Raphael Warnock, Jon Ossoff, David Perdue, and Kelly Loeffler are all horrendous candidates. I will explain below.

Raphael Warnock is a radical leftist and a vicious antisemite. A healthy body politic would never let him get near the levers of power.

Jon Ossoff is a trust-fund bozo who has never accomplished anything in his 33 years of life and is not remotely qualified to be a senator.
