THREAD: In the aftermath of Jan. 6 insurrection at the Capitol, far-right groups, pro-Trump militias, and white supremacists are revelling in the chaos caused, all while continuing to spread their propaganda & disinformation. Here is a small sampling:

The neo-fascist Proud Boys hate group bragged on social media about the fear they helped cause, while their leader (who was arrested on Jan. 5 and barred from DC) told them to “never stop fighting”

The NSC 131 white nationalist hate group—founded by former member of neo-Nazi terror group the Base—was present at the insurrection & later posted photos of stolen Capitol police gear while bragging about their role in storming the Capitol
