I guess it is true: Democracy does die in darkness!
Thank you @SenTedCruz & @Jim_Jordan for standing by #WTP & @realDonaldTrump
As for other @GOP, mainly @LindseyGrahamSC , you should resign your posts bc GOP is dead & useless. You all are treasonous traitors who betrayed #WTP

If our government was truly for #WTP, @VP & @SpeakerPelosi would not of held a certification over night when most voters are sleeping. They would of open mindedly listened to electors who objected to their state certifications instead of waving it off like they didn't exist

Instead as a Republic our Democracy was stolen in the dead of night.
You have to ask yourself, if our government is so "transparent" why would they wait to finalize votes and electors when most the nation is sleeping? Why would they want to hide?

Why would the so called "duely" fraudantly elected @JoeBiden push for $2000 stimulus checks, yet Congress would reject it from @realDonaldTrump , who wanted #WTP, small businesses and unemployed, taken care of?

Why would our government be so against setting up an election commission to verify there was no fraud during the election? What are they so scared of finding out? That they actually manipulated an election to screw America?
