THREAD: Nevada GOP local party chair spreads conspiracy that President Trump is taking over the country starting January 20th - saying "It's 1776 all over again!"

The Nye County, NV, GOP Chairman has released a letter declaring that President Trump will be president for another four years, and President-elect Joe Biden will not be president.

The letter is not signed, with the message explaining that the “intended audience was our rural membership and they all know me” – however the local party website where the letter is published states that the party chair is Chris Zimmerman.

Zimmerman declares that President Trump is about to govern a newly independent nation – he states the following:

- Zimmerman notes that President Trump never mention Biden’s name in his speech about a new administration coming to power, and does not formally concede. He says the new admin under Trump will include a new VP/new cabinet as “current ones have all made their treason complete.”

- Zimmerman suggests that President Trump spoke late intentionally to separate and protect the MAGA crowd from the Antifa groups, preventing them from being “drawn into the fray” along with those who entered the Capitol – saying POTUS was “ten steps ahead of them”

- Zimmerman calls the Capitol attack a “clearly staged event meant to blame Trump supporters and try to frame Trump so the 25th amendment could be used by Congress”

- Zimmerman suggests that Trump has “not arrested anyone yet” because he allows everyone a “chance to do the right thing”, including Georgia Secretary of State Brad Raffensperger and Vice President Mike Pence – and this allows him to “know who are the swamp creatures”...

...He further states that the “false event” at the capitol revealed the “final traitors” for who they were regardless of party affiliation, and Trump “flushed them out of hiding”

- Zimmerman says Mike Pence was already “wheeling and dealing back during the 2016 election” and alleges that Pence was involved with a scheme to oust Trump sometime during his first 4 years, orchestrated by Rod Rosenstein and supported

by the Clintons

- Zimmerman suggests that POTUS will speak to his supporters via the Emergency Broadcast System – as the FCC “just recently released a memorandum speaking to the requirements under Federal Law to send messages from the president to the public”

- Zimmerman urges followers to look out for disinformation, expect “high profile arrests over the next 12 days”, expect internet blockage or outages requiring alternate forms of communication

- Zimmerman says the executive order from 2018 and/or the Insurrection Act will be enacted – noting that it does not mean martial law, but the “state of emergency since 2018 gives the president many powers to act”

- Zimmerman calls Supreme Court judges "brazenly treasonous"

-Zimmerman touts conspiracy theory out of Italy that the Leonardo defense contractor “used satellites to change the votes from our election in the USA from Italy” and various other claims pertaining to Dominion voting
