Fact: Clark County officials threw out a County Commissioners\u2019 race (158k votes) because they didn\u2019t trust the process.

Then when the Trump campaign filed suit to throw out the whole ballot (not just one race) they flipped their decision and certified the race. @MajorCBS

Fact: 42,000 people voted twice in Nevada.

The judge asked for more proof to this claim - but the ballots and envelopes with signatures are controlled by Clark County officials (Harry Reid allies) and they refuse to allow an inspection.

The judge didn\u2019t care. @MajorCBS

This CBS tweet lacks serious facts:

1\ufe0f\u20e3There\u2019s evidence that these are not \u201cresidents\u201d since they\u2019re in the U.S. Post Office change-of-address registry.

2\ufe0f\u20e3The judge in the case is Stacey Abrams\u2019 sister.

3\ufe0f\u20e3These voters could cast provisional ballots anyway.

But good for clicks! https://t.co/apd40gPMiJ

It\u2019s past time to clean up the voter rolls, require an ID and enforce residency requirements.

We are the United States and our brand is free and fair elections.

We can\u2019t ask others to do better if we aren\u2019t leading the way. https://t.co/0yXCY657pp

> The lawsuit filed by TX to the Supreme Court & supported by MANY others throughout the US is a very strong, compelling argument in favor of & defending the constitution, law, & LEGAL voters of GA, PA, MI & WI, etc. It's a must read detailing eye-popping, confirmed wrongdoing.

> We are extremely disappointed in the NV Supreme\xa0Court's decision this evening. We were not afforded an opportunity to write our brief or argue the case in front of the Court. Full denial of legitimate due process and appellate rights is truly shocking. https://t.co/krnwzKYOmp

The bigger story is that the Nevada Supreme Court gave us 2.5 hours to respond to their outrageous demands.

Our courts are becoming very partisan. https://t.co/cckfPpBGy3
