Strange things are afoot at the Circle K. Let's sort it out.

[THREAD]

1/ Two nights ago, Rupert Murdoch called on Mitch McConnell, after hours. Since then, two Fox News-related Twitter accounts have not tweeted.

2/ Trump fired Sessions on Wednesday, replacing him with human dildo/Putin collaborator Matt Whitaker. Sessions had asked to stay until Friday and was told to leave immediately. So there was clearly some urgency to install the dildo...er, puppet.

3/ The Democrats won the SHIT out of the Midterms. Come January, the House check on Trump will leave him so hobbled, he'll be like the dude from Misery.

4/ Trump went to Paris, ostensibly for an Armistice Day centennial event. He skipped the event, and much of the dinner tonight, because of “weather,” which everyone seems to agree is a bullshit excuse.

5/ Tomorrow, Trump is meeting with Putin, who pwns him.

There are reports of House Repubs in Paris, just there for no good reason.

6/ Whitaker has no authority as “acting AG.” Also, he’s been called “a crackpot” and “a fucking moron,” and he was a key player in a company that bilked veterans out of their savings. Trump CLEARLY picked him b/c he thinks Whitaker will help him cashier Mueller. WRONG!

7/ Junior thinks he’s going to be indicted any day now. With the election over, OSC is free to resume busting collaborators.

8/ Kushner is rumored to be cooperating with Mueller since last December.

9/ The WSJ broke a story saying Trump AUTHORIZED and DIRECTED the hush money payments to Stormy Daniels and the Playboy model he’d boinked.

That’s a felony, all by itself.

10/ New York AG has Trump’s longtime mob accountant under immunity, and the case will eventually take down ALL the Trumps, including Ivanka and Eric. Assets will be seized.

11/ Trump’s usual deflections are not working. He’s scared, literally holed up in a hotel room, waiting to meet with the man who pwns him…and could end him in the blink of an eye.

The meeting will be recorded by every intel agency under the sun, BTW.

We are all impatient. We all want justice. We WILL get it. And then some. Soon. Be patient, stay frosty, and don’t lose faith. Shit is about to get VERY real.

WE SHALL PREVAIL.
