## Trump is gonna let the Mueller investigation end all on it's own. It's obvious. All the hysteria of the past 2 weeks about his supposed impending firing of Mueller was a distraction. He was never going to fire Mueller and he's not going to

> BREAKING: President Donald Trump has submitted his answers to questions from special counsel Robert Mueller
>
> — Ryan Saavedra (@RealSaavedra) November 20, 2018

Mueller's officially end his investigation all on his own and he's gonna say he found no evidence of Trump campaign/Russian collusion during the 2016 election.

Democrats & DNC Media are going to LITERALLY have nothing coherent to say in response to that.

Mueller's team was 100% partisan.

That's why it's brilliant. NOBODY will be able to claim this team of partisan Democrats didn't go the EXTRA 20 MILES looking for ANY evidence they could find of Trump campaign/Russian collusion during the 2016 election

They looked high.

They looked low.

They looked underneath every rock, behind every tree, into every bush.

And they found...NOTHING.

Those saying Mueller will file obstruction charges against Trump: laughable.

What documents did Trump tell the Mueller team it couldn't have? What witnesses were withheld and never interviewed?

THERE WEREN'T ANY.

Mueller got full 100% cooperation as the record will show.

Not 1 indictment the Mueller team issued had anything to do with Russian collusion with the Trump campaign in 2016.

Manafort was known to be 1 of the most corrupt people in DC, doing all kinds of illegal shady stuff. No surprise he got nailed on illegal lobbying/bank fraud

EVERY OTHER INDICTMENT IS A PROCESS VIOLATION.

Perjury during questioning by FBI agents/Mueller investigators.

It's over a year since Flynn pleaded guilty to 'lying' to Peter Strzok & Joseph Pientka during an interview about phone calls to the Russian ambassador.

Flynn's sentencing is now set for Dec. 18. Unless it's changed again, as Mueller's team desperately plays 'hide the ball' on the Strzok issue, the lead agent in the case against Flynn getting his ass FIRED from the FBI for violating all kinds of rules and protocols.

Papadopoulos was entrapped the same way. Like Flynn, NEVER charged with conspiracy or collusion but instead for giving several non-truthful answers during an interview. For this serious crime a judge sentenced PapaD to....14 days in jail.

Manafort: bank fraud/money laundering/tax evasion/illegal lobbying
Flynn: process perjury
PapaD: process perjury
Some lawyer who's name I don't recall at the moment: process perjury
2 dozen Russians running a troll farm: no effect on the election.

Meanwhile guess who's still out there in the weeds, getting ready to unleash hell? EVERYBODY has forgotten about him. As intended.

FISC/FUSION/STEELE/PERKINS COIE/DNC/HILLARY CAMPAIGN

He hasn't gone anywhere and he's got it all. All the fully uredacted SpyGate docs.

Reminder: Horowitz is the guy who EXPOSED the entire SpyGate plot. When he surfaced in Oct '17 after digging for more than 10 months into the evidence, he passed some on to Congress.

So people forgot about Horowitz & focused on the Congressional investigations.

Good. GOOD. That's great. Don't change a thing.

Everything you know came through Horowitz first. He's WHY Trump knows how this is going to go down when the bell is rung and the Pandora's Box gets the lid ripped off the top of it.

This is why Trump isn't worried a bit.

Trump has SEEN all the unredacted SpyGate docs. He knows exactly what they'll show. Not only was there no Russian collusion, but corrupt gov't officials in LEO/Intel agencies conspired to FAKE Russian collusion to help Hillary win the election.

Then to try to impeach him.

Trump's holding all the aces and the Democrats/SpyGate plotters are holding a shit hand.

Watch it play out.
