39.1% of Democrats think that it's wrong to negatively stereotype people based on their place of birth... AND that Southerners are more racist. <https://t.co/yp1hviLuBB>

As you might have expected, there's quite a bit of overlap - the same people who believe that stereotypes are wrong hold negative stereotypes of Southerners.

Just like everyone else, Democrats are mostly okay with stereotypes about people they don't like. And let's be honest - the people we don't like are dumb racist assholes.

65.2% of Republicans think that people shouldn't be so easily offended... AND that Black Lives Matter is offensive.

The Republicans who are offended by Black Lives Matter are the same Republicans who think people shouldn't be so easily offended.

64.6% of Democrats think that a woman has the right to do what she wants with her body... AND that selling organs should be illegal.

48.5% of Democrats think that a woman has the right to do what she wants with her body... AND that prostitution should be illegal.

Those are the same Democrats.

57.9% of Republicans think that people should be free to express their opinions in the workplace... AND that athletes should not be allowed to sit or kneel during the national anthem. <https://t.co/ds2ig1NJFr>

These are obviously irreconcilable political positions. And yet here we are.

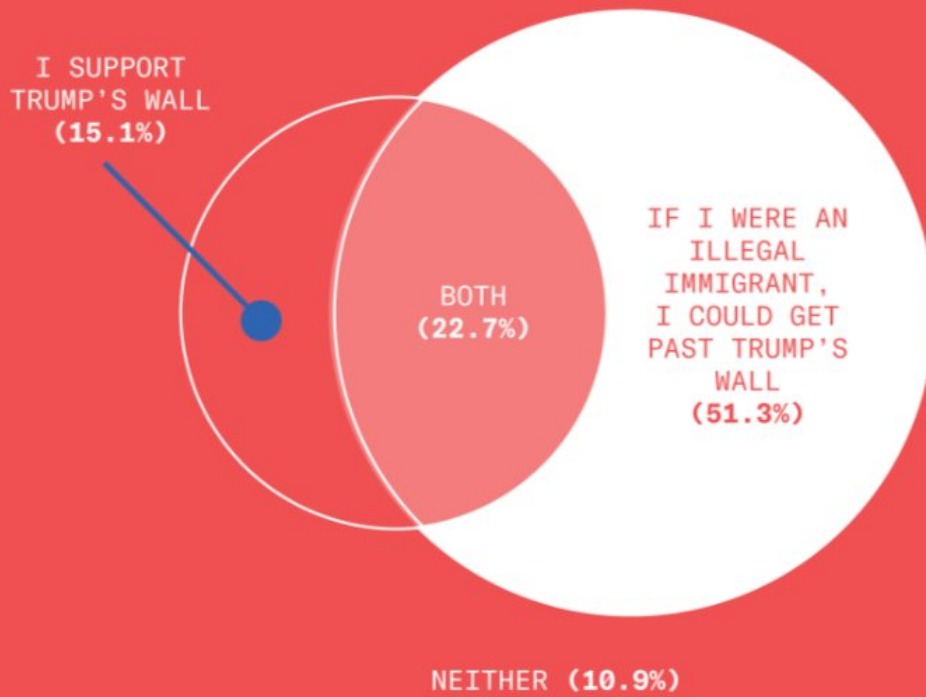

Democrats: Men and women are equal in their talents and abilities. Also, women are superior. <https://t.co/bEFSmqQguo>

Yep, those are the same Democrats.

More than half of the people who support Trump's border wall believe that they could get past it. <https://t.co/2Jc92JUxjK>

More than half of the people who support Trump's border wall believe that they could get past it.

Maybe democracy isn't such a good idea.

34.5% of Democrats say that they trust the scientific consensus... AND that GMOs are not safe to eat.

<https://t.co/Xgyycaao7B>

One in three Democrats think that they trust scientific consensus but actually do not.
