Praj Industries - BIG Picture

155-175 Major support and also retest of breakout.
275-220 Probabable targets in medium term.

Thanks. Praj Industries perfect smart distribution. More weakness below 336. Rise to 355-365 can face selling pressure.

Below 336 I see 275 in few months as long as its trading below 388 on closing basis CMP 351. https://t.co/iMRpbTfOpU pic.twitter.com/mKwgDwreaU
