Study big movers, notice price action and if you can boil water, then you'll find many similarities and be able to develop 3-4 setups, pick any one of them and master it.

An example: #BSE

#BSE

You don't need to catch bottoms and identify tops or follow news or scout for stock tips in order to make consistent money.

#LAURUSLABS

1st sign of a potential winner, makes a big move in a very short period of time (this was up 70% in 25 days)

Big winners will have simpler setups, break the base with narrower green bars sloping higher.
