The October Surprise of 2020: a #qanon and #BigDickAnon read.

I don't think it's a coincidence that BDA posted the Seven Days In May trailer on the same day President Trump tweeted this out:

> I have fully authorized the total Declassification of any & all documents pertaining to the single greatest political CRIME in American History, the Russia Hoax. Likewise, the Hillary Clinton Email Scandal. No redactions! https://t.co/GgnHh9GOiq

The President also just retweeted this:

> President @realDonaldTrump said Tuesday that he declassified all documents related to the FBI investigation into Russian election meddling and former Secretary of State @HillaryClinton\u2019s private email server.https://t.co/oKGkwujvYC pic.twitter.com/MjHmV6pyWG

It's the Hillary Clinton private email server bit I'm interested in. Because Q told us what was on it.

Let's go through it.

US loses space dominance.

Then a link to a Fox News story (now 404) that said the Oboma administration knew about NK's miniaturized nukes.

Barry gave NASA's tech to SpaceX. @elonmusk passed it on to NK so they would have ICBM capability. He also gave Iran and NK the US's nuke tech.

Ah. So here's where Hillary enters the game. She used her private email server to profit from peddling Special Access Programs.

SAP programs are above Top Secret. Merely possessing them without authorization is treason. They include things like the identity of US agents abroad and nuclear secrets. Q is implying Hillary was selling them for money. #FBIAnon said the same thing.

For the President to even mention HRC's private email server, let alone saying he's declassified all documents related to it, means things are rapidly coming to a head.

I'll take him at his word. That means right now, the President is aware of an attempted military coup and is taking steps behind the scenes to deal with it.

Strap in patriots.
