How Chinese government mobilizes millions covid guards (who are usually communist party menbers) to enforce the qr code vaccine passports rule?
The grid management system is the answer
For serious readers i recommend two

Breaking news!
Harbin city (near Russia)
Hundreds of people are being sent off to covid quarantine camps with this train!
Isn't this almost identical Hitler's final solution's train to Auschwitz camp?
Please share it with your friends.
Arise, Ye who refuse to be slaves!

Algorithm of time/spatial tracing of covid suspicious in china. Blue is patient,brown is a normal. Any browns within 1 miles (800m of radius) in the same 14 days with blue(■ 10 minutes)the brown will be marked by yellow or red bar codes, to be

barred from school, shop or train

那什么是时空伴随?

所谓时空伴随，是14天内，在户外开放空间，同一基站一定距离范围内有过规定时长(例如10分钟及以上)轨迹碰撞的手机号码，定义为可能暴露的时空伴随。**通俗地说**，比如，感染者14天内到过某地，而你这14天的轨迹与他有过交集，无论是身体上擦肩而过，还是通讯信号上的漂移，都可能被认定为时空伴随。

经系统检测出，你与确诊患者发生时空伴随，属于风险人群中的时空伴随者，健康码便会变黄码。

时空伴随者的黄码怎么转绿码呢?

转码条件为：做2次核酸检测，即变黄码后，具有2次以上间隔24小时核酸检测阴性报告，即可自动转绿码。
