1. A)Yes , monotheism does mean there is one God & all other gods are false.

But your statement that it also mean " that God is my God " is misleading . It depends on the doctrine of that monotheistic religion .

> \u201cMonotheism\u201d does not mean \u201cGod is one.\u201d It means \u201cthere is one God, that god is MY god, all others are FALSE gods.\u201d

From Islamic monotheism , Allah never said that he is Creator of Arabs . He is Creator if all in creation . So from a doctrinal pov your statement doens't hold up .

B) how did u write Advaita = hindu philosophy ? Do u want me to mention difference between Advaita and dvaita ?

" There is no concept of shirk in Hinduism " . This is a red hearing , No One claimed Hinduism also has concept of shirk .

2. Tribal God ? In Islamic doctrine . No where it says Allah is Only God of Quraish tribe .

It was always " ilahi n Naas " , not to mention islamic was always about one's belief & not race/ethnicity , So it was never tribalistic in its Nature .

> Most Hindus don\u2019t understand this (Sikhs do even less).
>
> Neither Sanatan nor Sikhi is \u201cmonotheistic.\u201d Monotheism is an ideology of supremacy, the elevation of a petty tribal god to the pretense of the Universal. It is ignorant tribalism universalized.https://t.co/yZkdxr7emP https://t.co/JDhOHnmGIT

& If someone's doctrine is to be Questioned for being tribalistic , It's Hinduism . It's a ethnico religion . Originated on the banks of Indus river , With special mentions to " Aryans " in 4 vedas.

Even after 4000 yrs , 95% of it's followers live in India .

Looks like a tribalistic religion which remained tribalistic in 2021 ■

3. A) So Those who surrender unto Jesus Christ makes no difference (acc. to Hinduism per ur understanding) .

> Only the Univeral Consciousness can say no matter who you pray to, the prayers come to me.

B)Christians are as much saved for next life as Hindus are . If suppose all Hindus convert to Christianity & Nothing of Hinduism left on Earth . It wouldn't make a diff. Because Acc. to you , no matter who they pray to . It's Acceptable under Hinduism (per ur understanding)■

then it would be hypocritical for any hindu to feel bad if anyone converts to Christianity , Islam or Buddhism .

C) now , you Quoted 9:23 . Lets see 18:63 of Gita .

Ohhho , this looks like a clear Contradiction as now krishna says surrender exclusively unto him . So that universal consciousness is Krishna ?

Now a Question for Mr. Shakrant , wht if someone rejects Krishna Existed ?

1. For if you say it doesn't matter as long as he does Good karma in life , then Hinduism itself doesn't matter . As people can do good acts without Hinduism . Why should Anyone convert to ur religion ?

2. If you say No Krishan is Brahman & must be loved (as written in Gita) , then this nullifies ur first Argument where u said monotheism is about " tht god is my God " .

As it is case with Hinduism that there is One UC , that is my UC & it's Krishan .

4. Again if the Doctrine Always said God is Creator of all things & he is One .

Whether you call it " ek ishawarwaad " or " ek devtavaad " , it doesn't make any difference.

who didn't stopped kurukshetra war where millions died including Childrens .

Classic strawman & red hearing from u again .

*I don't know how problem of evil in the World is an argument in your favour . As for putting people in " hell " it exist in Hinduism too .

6. Neither hell , whiskey , Sex , heaven , Virgins (1000+) , religious war to get heaven etc is Alien to Hinduism .

So how is this an argument in your favour.

You look like a man who doesn't have legs but is going around body shamming others ■

> Lol, your fantasy "creator" can't throw anyone into hell. Eternal hell and heaven (with whiskey and sex with "virgins") are useful for motivating barbaric male armies but little else. I don't worry about Allah, but his "believers" who create hell on earth.https://t.co/BABcIHUYB7

7. That's a strawman . Nobody says it's a prove that Allah Exists . It's an argument to show word Allah is not a specific god's name like Krishna or rama .

Allah means God . That's the only thing people mean by this statement !

Another red hearing which is debunked many times , & not even an argument in your favour as I can say a god who created caste system , Approved slavery & heaven with 1000+ apsaras is certainly fantasy of a Brahmin who wanted to establish a hierarchical Order to rule people.

8. But human slavery isn't a sin in Hinduism as well ■ ! I'm Amused by your lack of self Awareness .

You're ranting about things which Exists in your religion & from here I Only see you're just repeating the same BS .

Total Worthless . Lol
