The Introspection!

Banter with facts!
In both Bible and Qur'an assumption is sinful and leads to chaos and more doubts. Let's discuss this with an open mind.
You can't be a Nigerian and not know how supportive govt is educationally to a certain extent, except of course if you..

2. ... are a fish■ in a well/pond.

It's the blame games that brought us to a halt.
We all know how the managers behaves, you can't be in the govt and insult the govt, you could do your best while advising/sincerely criticising the authorities.
Let's go lower,..

3..you can't insult your principal in his presence no matter how stubborn you are.
Take it or leave it,we have limits,we should be reflective not aggressive. Here's my experience■■

I was favored(not cause I Sabi anything) to be the head boy in my primary and in my secondary..

4... where plenty gurus existed,those who could memorised the whole {primary}integrated science,Algebra,Data and Chance,Measures, listening and speaking,grammar, Number,Shape and Space.And the whole {secondary} Pre-Calculus Linear and non-linear equations and inequalities.

5...Cartesian coordinate system.Linear,quadratic, polynomial and rational functions.Logarithms and exponential functions.
Do not dare some hausas in cramming■■
In the primary,govt would supply teaching equipment and materials,I'd be called to give them some students.
Head of..

6...schools became a school owner in KD,I visited,he took me round and was lamenting afterwards of how teachers do steal teaching aids from him. I quickly remember his past and shook my head in befuddlement.
A lot happened in my first secondary School.

In my second secondary..

7. School some people on my TL knows the looting that took place. I'm not trying to bad-mouth anyone,we all are sinners but let's stop insulting people's parents because they occupied govt offices, you might be there someday, God ll test you too. My kitchen master used to..

8. vandalised food and other stuff made for us. Some went for the principal some others went for the kitchen Capt. I was bribed(God forgive us all)the day I vowed to expose them. I was threatened but didn't give up, until I sat with the principal,he explained ..why they used ..

9.why they used to do that and all.
That the foodstuff used to go bad and govt kept supplying.

What changed?
Our attitudes brought us here. I was told at home while researching through questions that: Ille Ife accommodation per year was #90,while school fees was #30 for..

10. a seamster.
Then I had discussion with some of my friends trying to go for residency and degree programs here and abroad. Exserpts from our discussion..
I don't know how much IBB uni students pay now,there were times they were paying much more than FG unis.
You may disagree.

11. with me/my points,my friend went to Ebonyi state university, the fee was increased from 35k to 65k for non indigenes & 22 to 45k for indigenes, according to him,the non indigenes were always happy cos they knew what it cost down south and the struggle to get the admission.

12.
I won't mention names. I knew of some doctors,Nurses, pharmacists and matrons who stole from the clinics they works.
I've seen CPT belonging to certain unis in some homes. Many Labs were vandalised by the handlers. Leave naija for NIGERIANS■■

13.
In KD,we used to go see our friend's parents who worked with UNTL and Breweries.
Them too dey steal wrappers and black oil,some plenty cartons of malts and beer! They'd throw some over the fences for their accomplices to grab.
The list is endless.

14.
There is good and bad in everything, including you and I.
We need attitudinal change.

I remind you and I remind myself!
