Shabbat Shalom! It's Torah Study time! Woo hoo!

If you're following this thread, sit back and relax because I haven't done one of these in a while and intend to dig ■

The Bible portion this week is called "Miketz," which literally means "from the end of."

Genesis 41:1-44:17
Supplemental: I Kings 3:15 - 4:1

https://t.co/RF4A7OU6aa

Why would a Bible portion be named "from the end of?"

Because really what it means is "from the end, beginning"

or "the beginning of the end"

Or "the light at the end of the tunnel" (think about the tunnels and how literal that is.)

https://t.co/aQXiknCDN2

End Times

The end of time

Redemption from the exile that time itself represents.

Time is a physical concept.

Physicality is a tear in the spiritual fabric.

God created time.

God will end time.

Time enables human beings to exist.

You are born, you experience things, you react, you act, and at some point you die.

The cycle of time, within which you encounter lessons, is what enables you to learn. Which is what you are here to do.

When the time for the trials of physical existence [trials which must include the exercise of free will] is no longer needed, physical existence and time itself will end.

All are really one and will be one.

“Miketz” - “from the end” - is the beginning.

The literal narrative of this Torah portion revolves around the end of pure prosperity in Egypt, which leads to the beginning of the Jews’ slavery there. The very early beginning; initially they are not slaves.

We can’t cover ever in one thread, but will return to the narrative soon.

More on the word “Miketz.”

The root word of “Miketz” is “Ketz.”

Jewish people speak of “Ketz Hayamim”

Ketz - End

Hayamim - of Times

Let’s talk about the End of Times.

Because the name of the Bible portion alludes to the End of Times.

Because there is typically a connection between current events and the Bible portion.

This is President Trump and the First Lady.

I have said before that I believe President Trump to be anointed not appointed by man.

President Trump’s maternal lineage goes to Scotland.

https://t.co/2v6sjort7N

“When Scotland Was Jewish: DNA Evidence, Archeology, Analysis of Migrations, and Public and Family Records Show Twelfth Century Semitic Roots”

https://t.co/gVd6TmFG7o

The Scots, the Irish, and the English descend from Joseph’s two sons, Ephraim and Manasseh.
https://t.co/QjmRuGkvet

Joseph’s sons Ephraim and Manasseh are 2 of the 12 tribes of Israel.

They are considered “lost tribes” who will be re-gathered at the time of Redemption.

https://t.co/5KMTYxJHkR

Ephraim and Manasseh were the children of Joseph and Asenath.

Stay with me.

Remember Potiphar’s wife tried and failed to seduce Joseph?

Potiphar’s adopted daughter was Asenath. (Here is that story.)

https://t.co/MFhIOxoMvt

Asenath was the daughter of Jacob’s daughter Dinah, who had been raped by Shechem. She was not Egyptian.

Joseph thus married his niece and the Israelites remained within the bloodline.

But Joseph and Asenath knew Egypt.

This matters. Joseph and Asenath knew Egypt — the center of occult wisdom in those days — what we would call the cabal today.

A slave must know the master’s ways well in order to defeat the master.

President Trump is a descendant of Joseph.

Just as Joseph mastered Egypt, President Trump has mastered the cabal.

Just as Joseph’s acted to ensure the physical survival of the people in slavery, so too President Trump.

Joseph’s actions were the beginning of physical spiritual redemption from Egypt and deliverance to the Land of Israel.

There was no natural way the Jews could have emerged from Egypt.

There is no natural way we can be saved from the cabal.

Let's talk about the "light at the end of the tunnel" - Redemption.

[Note: I am also seeing that Scotland's Jewish history is tied to the tribe of Judah.

This is a thread that is worth pursuing in connection to US history and the Civil War.]

https://t.co/B80Hri6gyP

Either way - this is a handout from about 20 years ago with Jewish insights into the End of Days — which is really the Beginning of the World of Truth.

It's lengthy so I will share key points, but you can access the entire PDF here. It's in English.
https://t.co/Sbg1adp0KO

The following is quoted from the PDF.

"The Ketz HaYamim Timeline
Revelations About the End of Days
By Rabbi Ariel Bar Tzadok. Copyright 1999, 2002 by Ariel bar Tzadok. All rights reserved."

[The Zohar here refers to the basic work of Kabbalah, which is fully Jewish. The Zohar consists of deep thought and specific prediction. Jews believe that the Prophet Elijah inspired Rabbi Shimon Bar Yochai to write it down ~70 CE.]

https://t.co/V4adq5QPY6

"The holy Zohar is full of messianic prophecies. Rather than speak about them nebulously, in general, as does the Talmud, Tractate Sanhedrin, the Zohar in numerous places speaks quite specifically about what will happen and when."

"The first step in the redemption cycle is to be the opening of the 'gates of wisdom' from above and the 'sources of wisdom' below."

The author calculates this year to be 1840, corresponding with the Industrial Revolution.

"According to the Gra, the famous Rabbi Eliyahu, the Gaon of Vilna, the development of modern industrialization and technology enabled the human mind to become free of our superstitious and mythological views of nature."

"a top student of the Gra, outlines his philosophy that technology is the opening of the gates of wisdom from above and below spoken of in the holy Zohar.

“Freedom of the human mind is the best preparation for the messianic era to come.”

“modern technology enables us to see the inherent Divine force within creation.” [unlike how the cabal sees it]

Second calculation: 1948

“what will trigger it [Redemption] and when will it
happen?

“One of the most obvious messianic prophecies needing to be fulfilled is the ingathering
of the Jewish exiles from around the world back to the Holy Land of Israel.”

“according to the greater Kabbalistic cosmic cycle the year of the founding of the modern State of Israel corresponds to the beginning of the cosmic Shabat. Thus, the birth of the State of Israel is indeed the birth of the cosmic Shabat, the messianic era.”

Calculation #3: “The Hebrew year 5,760 began on Shabat, September 11th 1999.”

“At this time, a spiritual decree was proclaimed in Heaven. Yet, it would still take some time until the fulfillment of this decree would become manifest here on Earth. We must face the obvious that the unclean spirit will not be removed without difficulty.”

“This is the way of prophecy. Fulfillment takes time, as ordained by Divine decree.”

The author does not believe the third date connects with 9/11, but the general timeframe lesson holds, and that’s what we will end with.

The author focuses on the year 2006 (based on various calculations) was predicted to be the year of Armageddon, which did not happen, but again let’s step back and see the big picture. Some disaster in 2006.

Obama’s 2004 DNC keynote js close. https://t.co/zrAT8qbU6k

John Roberts became Chief Justice of the SC 9/29/2005.

https://t.co/fg66t2ZmYc

Either way...
