2. Himalayas

This platform is fantastic for finding tech remote work ■

The UX is great, they have a plethora of opportunities, and they give heaps of data and insights too! ■

■ https://t.co/6cx6VoaN8d

The remote job board you'll actually enjoy using

4. Remote | OK

Work anywhere, live anywhere, Open Salaries.

Again, so many remote work web development opportunities for devs here.

They are completely open about salaries ■

■ https://t.co/jXstD5spuL

5. Remote CO

I personally prefer the other platforms, but this also a great platform for remote work dev opportunities.

It should definitely be part of your arsenal of sites to discover and land remote work software tech jobs.

■ https://t.co/aUqiYxtgAr

6. JS Remotely

This platform is awesome because it's super specific — JavaScript remote work jobs! ■■■

There's not as many job opps here, but they generally revolve around Frontend Development which is handy.

■ https://t.co/zY68H1mH8U

7. Job Board Search

Potentially saving the best till last.

Job Board Search is a manually curated list of 310 job boards ■■

Want to have an endless supply of remote work tech / software development job opps? This is it! ■■

■ https://t.co/ur4XVpflRU
