Riding from levels of 47 (Refer old tweet, tagged)

Impulse wave cycle + subs, completed and now waves adjusted.

This major wave 5 will only unfold, once it gives a closing above 153 levels on a weekly basis.

Another condition (refer 2nd image) is formation of a pennant (giving a sneak peak for a BO, closing awaited).
This is for short term / positional players

OI data is skewed because of expiry & will be misleading currently.
