SAIL - If I say Sail can do 65-70 in worst case how many hearts will break? ■

105 is key, Bulls might defend for the time being. Once they fail during any downtrend Boy Bulls will be in serious trouble.

First targets 90-95 and worst case 65-70 (This i wil review later)

Steel Authority of India Ltd., India, NSE:SAIL, M

Angle 2 -- On Log scale its end of this upmove from March 2020.

No major support until 90-92.

Conclusion - any rise to 123-128 is a sell opportunity

Bullish only above 145. Personally not bullish.

Potential taregts on downside are 105-90#SAIL pic.twitter.com/yZv2WXwIMU
