Uttarayan => SUNRISE Will shift from Lowest Point in South East till Highest Point Northwards

This Transition of South to North =Uttarayan 6 Months

So Uttarayan hops from 21 to 24 Dec

3. Sankranti Means 'Transission' of Sun from one Zodaic to Other

5. People practicing their Religion in Europe Before Christianity were Called Pagans by the Church  
 Their Practices and beliefs were same as Sanatan.

Don't believe me it is what a Christianity Website Says.

**Animism:** A key part of most Pagan worldviews is the holistic concept of a universe that is interconnected. This is connected with a belief in either pantheism or panentheism. In both beliefs, divinity and the material or spiritual universe are one. For pagans, pantheism means that "divinity is inseparable from nature and that deity is immanent in nature".

The church in Rome began formally celebrating Christmas on December 25 in 336, during the reign of the emperor Constantine. As Constantine had made Christianity the effective religion of the empire, some have speculated that choosing this date had the political motive of weakening the established pagan celebrations. The date was not widely accepted in the Eastern Empire, where January 6 had been favored, for another half-century, and Christmas did not become a major Christian festival until the 9th century.
