Saregama - Simple MA strategy working well. A price constantly testing 20 EMA and bouncing back is the one that is in a strong uptrend. If you miss any one of the strongest stocks during a breakout, observe its reaction as it comes near 20 EMA again and hunt it down.

Saregama - \U0001f3b9\U0001f3b6\U0001f3bc\U0001f3b5

Will it respect the 20 EMA again? So far, no serious selling. Price coming down with negligible volumes.
