I have done that for many including Dixon, Lauras, Deepak nitrite, Tata Elxsi, Tanla & many more. It is time for you to look for common characteristics among the winners. It would be a great learning experience.

- **SECRET TIP**–The first step in learning how to pick big stock market winners is to examine leaders of the past, like those you’re about to see, to learn the characteristics of the most successful stocks. From these observations, you will be able to recognize the types of price patterns these stocks developed just before their spectacular price advances.

Other key factors you’ll discover include what the quarterly earnings of these companies were at the time, what the annual earnings histories of these organizations had been in the prior three years, what amount of trading volume was present, what degree of relative strength there was in the prices of the stocks before their enormous success, and how many shares of common stock were outstanding in the capitalization of each company.
