- Rakesh Jhunjhunwala
- Volume Analysis
- Cash Investing Strategy
- How should new entrants learn quickly?
- How to use Nifty to beat its own returns?
- Compilations of many threads

■ Superb Thread on RSI

1. Uses of RSI.
2. Investment strategy based on RSI.

(@YMehta_)

<https://t.co/rVkok0hkt3>

#RSI is a common indicator which most of us use in the stock market.

This learning thread would be on

"\U0001d650\U0001d668\U0001d65a\U0001d668 \U0001d664\U0001d65b \U0001d64d\U0001d64e\U0001d644"

Like\U0001f44d & Retweet\U0001f504 for wider reach and for more such learning thread in the future.

Also, an investment strategy is shared using RSI in the end.

■How did Rakesh Jhunjhunwala make his money from trading? Covered very well.

(@ArjunB9591)

<https://t.co/ydhObBvCb6>

Rakesh Jhunjhunwala became rich initially by Trading and not Investing.

Thread on the same \U0001f9f5

It is called genius because Jhunjhunwala made Rs 20 lakh to Rs 15,000 crore in 30 years through the stock market. And that Rs 20 lakh was also borrowed money at 20% interest. <pic.twitter.com/ZkGU4iG5UR>

— ARJUN BHATIA (@ArjunB9591) October 21, 2021

■Amazing thread on various indicators.

(@Prashantshah267)

This is not a thread from the current week but [@ArjunB9591](#) brought this to my notice so I shared it.

■Monthly Learning Calendar for Investing.

If you can spare 1 hour per day for learning about investing, you can copy this calendar to up your knowledge.

(@RamBhupatiraju)

<https://t.co/aRknRhAMfg>

My Monthly Learning Calendar for Investing.\U0001f5d3\ufe0f

If I had 1 hour per day (for non-Company related research), this is what I would do.

Going thru specific topics on specific days should help streamline the reading/learning process w/o causing too much information overload. <pic.twitter.com/53pZkgySHF>

Multiplied his own money by only cash investing.

Sharing his strategy in the next tweet.

(@Trading0secrets)

<https://t.co/gRXVErKMUs>

How I turned 7lac account to 33lac in just 1 year only by cash trading.

Soon going to make full thread about my strategy of cash by which this happened.

And for cash hedging I started option selling in different a/c.

How many of u intrested for that thread? \U0001f499\U0001f49b\U0001f499 <pic.twitter.com/wlyfE8fwfw>

■Cash Strategy by which you can multiply your money.

(@Trading0secrets)

<https://t.co/X0y4U7V1TY>

The cash strategy \U0001f447\u2622\ufe0f\U0001f447

1\u20e3 #stock selection process - always choose that stock which are consolidating near all time high.

(Because whenever stock will give all time high breakout then it will easily give 20/30% return in 1/2 months

U can use trading view scanner for that. <https://t.co/i6za7YN7pb>

■Compilation of tweets made by [@niki_poojary](#). Can learn from these threads a lot, all of them are practical and not theoretical.

(@niki_poojary)

<https://t.co/nNLfVUOyz9>

In the past few months I have curated various threads

For some reason, people seem to love it

Here are all of them, chronologically:

■Amazing thread covered by [@SahilBloom](#), Apple journey teaches us:

1. To play long-term games with long-term people.
2. Taking a punch.

(@SahilBloom)

<https://t.co/3UOJ6fPYGK>

If you had invested \$10,000 in Apple in October 1991

The value of that investment:

December 1997: \$2,675

Today: \$4 million

Life is never straight up and to the right. Play long-term games and learn how to take a punch.

When in doubt, zoom out.

■Recommended pathway for new entrants in the stock market, my favorite thread of Sir's account.

(@DillikiBiili)

<https://t.co/DCO9SczbKQ>

So friends here is the thread on the recommended pathway for new entrants in the stock market.

Here I will share what I believe are essentials for anybody who is interested in stock markets and the resources to learn them, its from my experience and by no means exhaustive..

Stocks that have corrected 10-20% with a strong MOAT. We need more of these tweets, please.

(@EnSaluja)

<https://t.co/FgdgydeVxx>

These stocks have corrected 10% to 20% from 52 week high but have strong MOAT in the industry they operate in.

Valuations may have ran ahead of itself for these stocks to correct. [#StockMarket](#) [#Nifty](#) pic.twitter.com/449ZN26MGy

The Elegance of Equal Weight Indexing, A Thread \U0001f9f5

Many investors and money managers spend time, intellect and effort to beat their benchmarks. It\u2019s not easy.

But what\u2019s easy is to use the benchmark, like the Nifty Index, and use it to beat itself.

This thread is about this.

Avoid middle-class thinking & go get rich.

(@1shankarsharma)

<https://t.co/GAgoPrVXNN>

One of the tricks to getting Rich is to avoid "middle class thinking".

No matter what anybody says, you will, largely, be judged by this world (friends, parents, spouse, kids, all), by the amount of money you have.

So, Go , Get Rich.

4 reasons for market fall.

(@Atulsingh_asan)

<https://t.co/hE6dKdLUem>

Four Reason for Market Fall

-Index & many stocks RSI crossed 80

-Technical Gap filling

-Positions cut by Institutional by profit booking in many stocks

-Earnings vs Valuation Gap in many stocks

After each 3 month during earning season such kind of fall happens, it\u2019s Normal

— ASAN (@Atulsingh_asan) October 21, 2021

Don't bet more on your mistakes, sure shot way to failure.

(@ipo_mantra)

<https://t.co/YB27koGil4>

Buying a bad stock is not a mistake .. it happens with all of us.

Problem starts when we refuse to accept that mistake and keep averaging that bad stock to prove ourselves right.

Small investors don't have the same limitations as that of a fund manager, should use it to our benefit.

(@Atulsingh_asan)

<https://t.co/B1iqm8QnHY>

If a fund manager bought a small company & if it performed badly he could lose his job

However, if he bought a blue chip like HUL & if it did badly, it didn't matter much as everyone owned HUL

However Small investor doesn't have this limitation, they can research & make fortune.
