@JustNifty

Blue line(13Sma)moves below Red line(26Sma), SELL triggers

Only 2 signals - Buy & Sell

There is no stop loss in this system.

There could be some wild swings in prices like on "Budget Day" - In such a scenario, Keep 30 - 50 points below 21Sma to avoid big DD

It's a SAR system

how to take stop loss..? low of prev candle?
