Except ici, none others went above O=H.

(I personally never trade based on O=H/ O=L; area is prone to spikes.)
But, when index & heavyweights have O=H at same time, it lends more credibility.
-> today Gapup buyers were not in control.

> #nifty #hdfc #infy #hdfcbank #icicibank #tcs have nearly O=H. (Give or take few points)
