OI Data reading seekh lo:

See Large OIl buildup kin strikes par hai and in between strikes data kaise move ho raha hai.

Thumb Rule:

Calls Reduction + Puts addition = Upthrust
Calls Addition + Put Reduction = Down move

Higher the Delta OI velocity, faster is the move.

> For Nifty Intraday Traders: As of now, this seems to be a buy on dip market and looks like there won't be any juicy trades on short side. Will update if data changes. https://t.co/PCIyyPld4A pic.twitter.com/ES3o4z60rY
