What: The Warren Buffet way of Investing

Tweet: <https://t.co/hC7sl2tYnu>

Buffett's letters taught me more about investing than any business school ever could.

Even after investing for 14 years, I uncover new insights every time I reread his letters.

1/ A Thread on Markets

It is the year 1500 and you enter a market in Renaissance-era Italy.

There are buyers and there are sellers. Prices of the various goods are determined by the interaction by and among these individuals.

Now in walks Mr. FEDerico, a man of endless means.
