**Can you observe now that it has made a fresh high?**

**Repeating - the max. move is in catching them before the BO. At the point where the maximum selling is absorbed. This is called the pivot point. The least risk entry point. The best R:R you get @ pivot**

**India Glycols https://t.co/ntimbgEoQr**

India Glycols - a flat line breakout. Need a good volume confirmation here. pic.twitter.com/gbeloUQjAC
