For 7 yrs I struggled to ride trends..

& in 2015-17 when I started learning TA smthng crazy happened..

Here is a simple strategy that helped me..

- **Identify turning points in stocks**
- **Find quality stocks**
- **Not panic & ride trends**
- **Finally make ■**

CCI & Pivot Strategy■..

1■ How to filter stocks? Is there a scanner?

There are 1000s of stocks in the market & you need to invest in only a few.

How do you narrow it down to a select few?

Use this simple CCI based scanner every weekend■
