25Sma in "15 min. t/f" is same as 75 Sma in "5 min. t/f" which we use as 1 Day average

Earlier chart in 5 Min. t/f with 75Sma
Relate oscillator movement to #priceaction & you'll notice price rise as "corrective" based on the feeble rise compared to indicator's rise except once.

Good afternoon master,

What does sma 5 means with 25 ma as seen in this chart.

How to use it with macd master?

Already following systems that i learned from you.

Want to add another learning from this.

Keep blessings master \U0001f64f
