**If you are in the market taking direct exposure in stocks for long term investing, you at least need to learn**

- 1. Basics of Finance**
- 2. Basics of Valuation**
- 3. Basics of Fraud**

**Else you are putting your hard earned money on fire. Enough books and free resources available.**

Wrote this thread for the same leveraging one of my Youtube videos as friends wanted to know where to start  
<https://t.co/NWPjleLiy>

Few friends are asking for list of books to learn investing topics. Have covered from my side a year back in this Youtube video <https://t.co/bUb2S3eAVm>

Will break down into parts what needs to be read at least as a pure fundamental investor in this thread
