@JustNifty

When trending, especially above #movingaverage, ignore this behaviour of #MACD

.

I use MACD for reversal points only.

Do not follow it at every 5 minute.

Yesterday and today both we had MACD divergence . Yet market was just continuing in the opposite direction . Can you please what to do in such case ? . For eg - today I was unable to go long because there was divergence . Same case was for yesterday . Can you please guide .\U0001f64f pic.twitter.com/vfqy8dRAU2
