**Opposite is happening now. IHNS, double bottom, +ve RSI divergences, etc are failing badly for permanent reversal. Level up your SAR game to stay in the game on both sides.**

**#bearrun**

**#BearMarket**

Head & Shoulders pattern, double top and bearish RSI divergences fail more often in bull market and generally gives a very good SAR trade. Vice versa is also true for bear market. [#bullrun](#) [#BullMarket](#)
