#YemenCantWait there is the most brilliant plea for an end to the War on the People of Yemen right now at https://t.co/V4hiU04urX What a TRIBUTE to the #Yemeni People. SO many really care for #Yemen, @joebiden must ends the label of the #Houthis as a Terror Organisation.

@RoKhanna Great to hear this from you on #YemenCantWait and looking forward to seeing you cease USA logistical and military support to #Saudi on their campaign in #Yemen, and that they pay reparations and lift the blockade. Yes please send that AID. @ABlinken

Couldn't be more proud to hear @johnfinucane on behalf of @sinnfeinireland and #IRELAND at the #YemenCantWait @Zoom Conference tonight.

Millions of Children, (1.5 times our population in Ireland), do not have access to safe water in #Yemen STOP the #Saudi blockade.

@johnfinucane says that Ireland must be a symbol for PEACE. Immediate Ceasefire and Lifting Blockade DEMANDED. Funding must be restored. We have seen our share of poverty, war and hunger in the Ireland past, we will not stand by and endure that others feel it. #YemenCantWait

@DanieleObono @FranceInsoumise now "#France selling arms, canons, missiles and ships to #Saudi for offensive purposes and to commit war crimes, along the Saudi #Yemen Border. France in breach of the arms trade treaty in all of its actions. IT IS NOT COMPLEX @EmmanuelMacron "

Yemeni Canadian Prof. @shireen818 speaking about how this plea was made to #Obama - only finally gaining traction now. (#SHAME) This #YemenCantWait for @JustinTrudeau to stop supporting War on Yemen, and again @POTUS you unjustly entered this war its your responsibility to end it

@shireen818 asks the international community to please continue fighting for #YemenCantWait - keep tweeting, raising awareness, keep up your advocacy, Yemen children are violently starving to death, millions of them. #liftthеblockade #Yemen

On #YemenCantWait Zoom call @jeremycorbyn now largest humanitarian disaster in the world - cholera, covid, bombing of schools and hospitals and the disease of what will come is the fault of arms sales $90b to Saudi and more to neighbouring countries. Profits to Arms Industry.

@jeremycorbyn says that the bombs that are falling on #Yemen are being controlled in other countries... this is the fault of external actors and governments. Profits are being made from the killing of children, destruction of countries, proxy war of Saudi > Iran. STOP

@jeremycorbyn is really inspiring, billionaires profit from bombs on #Yemen He warned that the war on #Iraq would have consequences - he was not wrong, it came to pass. A Global Movement CAN #StopYemenWar. We must have CONFIDENCE in our Unity that's NOT based on Weapons or War.

Yemen will need FUTURE help for the fall out of this War, help for nutrition for their children, as the consequence of the famine will impact their growth, their education and their mental health. @AishaJumaan #YemenCantWait

There are so many more of us in the world who want to #StopYemenWar than there are of those who encourage it to continue. Because they are making an absolute KILLING of a Fortune, their hearts are dead and they have no soul. #YemenCantWait

Do they love their own children too?
