Here's my story ■■ I worked in a preschool in ■■, masks were a taboo that no one dared to talk about. When I quit & said I didn't wanna put my health at risk anymore w/o ■ my boss said "I understand, if you're scared of diseases this is no place

for you"

> A teater came to the preschool today. Two ppl were there from 7 am-1 pm. Saw one coughing & blowing his nose several times. The teater was indoors w/ singing & loud laughing.
> Today is the day I quit my job. I refuse to work any longer in a place where no one cares about my safety
