Black dc, you think gentrification is bad,
Once they get statehood this city taxes will be higher than California and New York combined. You know what that means? Redistricting back to md/va.
This will be a disaster for black DC and the mayor will not care.

Ps the only thing mayor bowser wants is to be governor. She will sweep the homeless out to md/va faster than she does now. Oh ps she also dumps her problems in va when it comes to vaccines and gave under age children the right to inoculations w/o parents consent.
