#PICUQI #MedEd #PedsICU #CCC50

First up, discussion of #PICUQI #CCC50.

# Quality Improvement

**Key Improvement Needed:**  
Implementation, Adherence, and Study of  
Evidence Based Guidelines

First up by @ndean75, "The Late Rescue Collaborative: Reducing non-ICU arrests" in @PedCritCareMed Dean & colleagues saw decreased rates of non-ICU arrests & increased participation through @AAP #MOCPart4. #PICUQI #CCC50  
<https://t.co/PYcz22MA6x>

@ndean75

Editorial by @pccm\_doc: <https://t.co/1B8E1iXUxP>

@wolfe\_HA @pediRESQ in @PQS\_LWW used a plus/delta approach to assess cold debriefs and found commonly reported barriers to be lack of time, financial support, or interest. Do you do cardiac arrest debriefs at your center? What are your barriers? #PICUQI #CCC50

@mgaies @pc4quality in @PedCritCareMed found the incidence of thrombosis 2%, CLABSI was 1%. Significant risk factors for thrombosis and infection were younger age, greater surgical complexity, and total catheter days. #PICUQI #CCC50 <https://t.co/Ht8ADvO8VD>
