Ram Mandir, Donation or Extortion : A thread

These saffron clad people came to my home and my dad being himself asked these extortionists for their details when they stepped inside my house, to which they harshly said they were Karsevaks, while asking my dad his name, gotra etc.

My dad not wanting to invite trouble took a 200 rupee note out to get rid of them, to which they refused and said they don't even have a receipt for less than ■1000, and people were donating lakhs, trying to shame him.

My father countered by saying if it was a donation he'll give whatever he wants and that he was an educated person who could sense if it was not a genuine donation drive.

To which they harshly said : "Parhe likhe nahin hain tab hi toh Laal Qile jaise kaand ho jaate hain"

And noted down our house number and left without taking the donation, in a manner that seemed like a subtle threat.

All the extortion going on is going to be used for funding of Saffron Clad Riot Causing Local Militia, which will next terrorize your own neighborhood. Mark this

These saffron clad men won't even cut a receipt for less than a Rs 1000, they don't miss a single house, no one dares ask a question if they're legitimate out of the fear of being marked as an "anti-national" or not hindu enough in front of their neighbors.

There is a deep sense of fear in hearts of those who live around and the way they ask for donation is hardly asking, they're passive aggressive, they step right inside your homes, if you ask them any details, they try to shame you.

What is this monster we have created ?
