Christ Letters from Christ's Way
@CelestetheOne

If women knew how they carried the divine letters they carried, they would understand why dark groups made so much effort to break the marriage tradition. The hymen of women is not only for health and hygiene purposes.

Especially as it is thought in the eastern parts of the world, it has nothing to do with honor. Every woman has a divine letter with her virginity. This divine letter is in the first sexual experience after a true spiritual marriage, in the presence of God, in sickness-health, ..

good day-bad day, until death separates them (without any earthly condition), in the first sexual experience that takes place after a true spiritual marriage, where they are promised to be with each other for their spiritual development.

During the opening of the membrane, its seal is opened with the first drop of blood flowing. This blood is the only divinely allowed blood. All other bloodshed violates divine laws. When there is no marriage, that is, when the oath is not given before God,

the divine protection is removed and this letter is destroyed by the dark beings. This is why the peoples of Europe were taken to unmarried partnerships, polygamy, youth madnesses, and these were normalized, especially for the destruction of the sacred letters of great importance

and carried by women in Europe. The reason I tell them is so that we do not forget the wisdom of the ancients, and that we can bring them back to life. Devil's deceptions are varied.

In order not to be deceived by the devil, we must repeat to ourselves every day that we do not want to leave the path of divine light, no matter what we live. We must declare this to the divine realms.

And every time we live in physical reality, we must seek divine light guidance and facilitation at all times so that they do not separate us from the path of divine light.
