### 4 Dimensions of sex

(according to Daniel Rose)

### THREAD

**Sex (especially for women) has several dimensions**

**Daniel Rose (Sex god method) has described the so called DEVI model**

**It refers to 4 Dimensions of sex**

If you take care of all 4 Dimensions you and your girl will experience sex very different, mind blowing.

DEVI model consists of:

Dominance

Emotion

Variety

Immersion

Dominance:

Your girl WANTS you to dominate her,

It excites her, it makes her wet

This is very primal

Make sure you do it properly:

Manhandle her

Show her your force

Slap her ass

Rip her clothes off  
Dirty talk to her

Don't let her decide, you take the lead  
Ignore her if she nags or misbehaves  
Develop a DOMINANT PERSONALITY

Helpful: Strength + being taller than her

Emotion

Women RUN ON EMOTION  
Having emotionless sex is pretty boring

Making sure that she experiences strong emotions will ensure that sex gets better for both of you, that's why sex after having an argument is such fun...

So you can:

Make her express her feelings (Make her say "I love you")  
Piss her off (Sometimes)  
Show affection after sex  
Make sure she's emotionally invested in you: Make her do things for you, let her VALUE YOU

Stop being a robot. Men experience emotions for a reason, don't suppress them.

Variety:

Pizza 5 times a week becomes boring

For the same reason you need variety in your bedroom  
Don't let her know what you're up to, be unpredictable  
Do whatever you WANT TO DO  
Don't plan sex, just ACT  
Be spontaneous  
Be bold (don't get caught!)

Try some new positions  
Surprise her  
Be dominante  
Be gentle

Immersion:

This is probably the hardest for most  
It's about letting go of yourself and enjoying the act of sex in the moment

As I said before: Don't plan sex, it'll destroy your vibe.

Stop trying to convince yourself of how good you are, just go ahead and act.

Don't become a pussylicker who wants to please HER at ALL cost

Don't let insecurities bother you: she doesn't care about your dick size as much as you think.

Don't ask her how sex was. Don't worry about this. If you let go of yourself it WILL BE GREAT

Helpful: Meditation + Physical activity will ground your thoughts
