Dark to Light Knight

[@LandslideCometh](#)

Nov 3rd was Election Day. There were 28 days left in the month.

Dec 17th is this coming Thursday.

28 days + "17" days = "45" days.

I'm sure it's just another coincidence.

When does it become mathematically impossible?

Who was 28th POTUS?

Why is it relevant?

(continued)...
