only 1.9% of farmers in US are African Americans .. But you yap nonsense about India .. wonder when will you white pigs leave the lands you usurped from natives n return to Europe ? The world has had enough with you white arse h0les.. your entire history stinks

@gettleman how many overseas bases have you decolonised ? Just last year the ICJ ruled against USA n UK but you white pigs refused to vacate Chagos , you made 1000s of Chagossians homeless for your military base...

@gettleman USA has used Latin America like it's colony .. you killed people to just make profit out of bananas .. you converted ppl of bikini n Marshall islands to Shitianity but used them as guinea pigs for your radiation exposure tests .. your country should be punished
