MY FIRST THREAD■

I am posting what I sent to my Reps in D.C., in hopes that others will follow. The time is now or never to say HEAR ME!

(1)To: (my reps),

It is your duty to stand and represent, as our reps, to not only vote to elect Trump, but also with your objections to electors that are falsely claimed for Biden.

You are bound by the constitution to uphold what the maj. of YOUR constituents

2. believe to be true.

(A)That Donald J. Trump won this election in a grand way and should be inaugurated on Jan. 20. 2021.

(B)That Biden electors in certain states are falsely claimed by the use of lawlessness and deception.

(3) As a public servant it is your duty, first and foremost, to represent your constituents. You are our voice in Washington and our voice needs to be heard. We know much about what happened in this election, and on what we don't know, there are very strong

(4) suggestions and unexplained anomalies. If you don't stand up to fight for America herself today, to fight for the truth to be uncovered, then you will never have this chance again. Even if you have been "promised" a "bright future". To surrender today only means one thing.

(5) It means you will comply with orders given by the enemy...at least until you are no longer needed. Much like the voice of the actual "we the people" are deemed not needed, nor even considered today. I also believe this will not end here.

(6) It is crystal clear
that Trump has been steadfast in the fight to right this "ship" that has been off course for many, many years now. He is strong, he is powerful, and the power of God is with him. The ship will be righted!

(7) However,we (through you, our voice) are required to take up this fight along side him, and also of Him.

Therefore, I urge you today to STAND UP for us and OBJECT on Jan 6 to all electors who are representing states that have serious questions and unexplainable anomalies

(8) that are in violation of our election process. If these things are allowed to pass at this time, then you will have opened the door to the same and even worse violations in the future. A future I cringe to even imagine. The time to end the lawlessness is NOW.

(9) If you choose to stay silent on these extremely important matters today, then you need to understand that "we the people" will abandon you as you will have abandoned us in this crucial time of need.

SINCERELY,

Kittie Gravett
