@NoToStalkers

Year end holidays are a time for peace, family meeting and friendship. But not for stalkers. They have no life, just hatred. In the middle of January 1. night, haunted Ramla Akhtar, the Pakistani repulsive whore, was barking and ranting as usual.

No surprises Ramla Akhtar's Twitter account is such a stinking crap that it attracts no audience.
With her last 3200 tweets on @GruaAbuseArkive, Ramla Akhtar can only reach a 436 total engagement... 87% of her tweet are totally ignored.

With just two tweets, Bernard Grua, Ramla Akhtar's main stalking target, exceeds the engagement Akhtar "reaches" with 3200 tweets...

The very despicable part of Akhtar's stalking is that Bernard Grua's engagement of 291 (more than Akhtars total engagement) is on a tweet he made to answer Akhtar's calumnious denunciation to Nantes first deputy mayor, Bassem Asseh...

With more than 13,900 tweets via her two Twitter accounts, Akhtar still did not learn on how to use this Social Media. What a stupid troll.

Massive stalking does not work. Bernard Grua's Twitter audience is resilient and growing. Especially since France can't stand Pakistani hate speech and terrorists.
