(TW; Sexual Abuse; Rapist)

I was very recently forwarded a news article concerning a person who has been convicted of various sexual offences against children, and it has came to my attention that this individual may have been targeting the #ActuallyAutistic community

The person's name is Tom Graham. He used a couple of different Twitter account names, but the most common was this one, @serverusautismo

In December 2020, Thomas Graham was returned to prison after breaching a Sexual Offences Prevention Order, (SOPO). He was in prison after being convicted of rape in 2011, and previously was jailed in 2003 for taking and distributing indecent images.

When he was on Twitter, Graham frequently tried to ascertain the ages of individuals on Twitter, and given what has come to light, this is now extremely worrying as I believe he was searching for individuals to groom.

I believe he specifically targeted Autistic People because he believed we were more vulnerable to his advances for a variety of reasons.

Tom was also a part of a group that called itself the #AutisticDarkWeb , and I want to make it clear that there is absolutely no reason to believe they had any clue as to Graham's true identity and intentions.

Graham went to some lengths to disguise his true identity, including writing stories about his family and writing pieces for various blogs.

I'm writing this thread in order to make anyone who may have had any contact with this individual aware of this person's true identity. If you ever had any interaction with this individual, you deserve to know the truth about who this person really is.

This is his latest account, and I've noticed several of my followers also follow him. I'll be contacting everyone that does follow him in order to alert them.
