Millenial for Liberty

@mill4lib

You covered our faces for almost a year.

You called us racists.

You called us Nazis and KKK-sympathizers.

You called homophobic, transphobic, and xenophobic.

You censored us on virtually every social media networking system, silenced us, hid us from sight.

You called us all conspiracy theorists when we presented research and connected the dots.

You destroyed our cities for half a year over baseless lies of systemic racism.

You burned small businesses to the ground and called to defund law enforcement.

You facilitated the loss of businesses and income of millions of hard working, law-abiding Americans.

You trapped us in our homes and effectively sent us into solitary confinement, shaming us for questioning your motives.

You destroyed our education system, failed our students, our teachers, our administrators.

You denied our right to go to church and work but you opened godless strip clubs and allowed massive protests instead.

You fought for the mail-in ballots to be legally counted and facilitated massive fraud in the previous election.

You threatened canvassers, judges, legislators from looking into and legitimizing fraud allegations.

You failed to listen to constituents and disenfranchised voters who saw fraud happen firsthand, and called them crazy liars for thinking so.

You came together to certify a fraudulent election with a supposed “president-elect” who sold this country to the Chinese Communist Party.

I ASK YOU:

WHAT THE FUCK DID YOU THINK WE WERE GOING TO DO ABOUT IT ALL?!?!
