Anyway, here are some of the "communist" blog posts about the Qongresswoman from Georgia (thread)

In 2018, she agreed with someone who said that 9/11 was an inside job and argued that the school shooting in Parkland, FL was a false flag. https://t.co/vFPWjcZJHy

And then there's another time she said that the Parkland shooting was fake https://t.co/XbwpEotSon

She claimed that there was "never any evidence" that a plane was flown into the Pentagon on 9/11 https://t.co/lYpm0niPZo

She once recorded herself going on a deranged rant arguing that Ilhan Omar and Rashida Tlaib are illegitimate members of congress because they didn't take their oaths on the Bible (you do not need to take your oath on the Bible, but MTG is a goddamn moron)
https://t.co/W4Ci35ZgNy

In December 2018, she posted a video that claimed that Jewish people were trying to destroy Europe through immigration.

When a Trump supporter mailed pipe bombs to Democratic politicians, Greene called it a "hoax," arguing that Dems mailed them to themselves. (It was not a hoax. The man who did it pleaded guilty. 20 year sentence.) https://t.co/405TWigo58

She posted a video (she posted a LOT of videos) making the absolutely bonkers claim that Obama hired MS-13 to assassinate DNC staffer Seth Rich https://t.co/ALhGdJ5MAH

Also in 2018, she posted a video claiming that Obama was a Muslim, and that he "opened up our borders to an invasion by Muslims" (she *really* does not like Muslims) https://t.co/lYpm0niPZo

In a 2018 speech, she praised the militia movement: "Because when our government gets to a place where it's a tyrannical government, we're guaranteed the right to bear arms and make a state militia so that they do not run us over" https://t.co/gi5LKsUWJm

And then some stuff that other places reported:

Last year, Green posted an image of her holding a gun next to images of Ocasio-Cortez, Omar, and Tlaib, saying that it was time to go on "offense against these socialists" https://t.co/ph0OiLPKoa

And she once wrote that she believed the Unite the Right rally in Charlottesville was an "inside job." https://t.co/t1dhS3Od7I

NBC reported that she wrote "dozens of articles" for the conspiracy theory site American Truth Seekers that spread all sorts of conspiracy theories (a belief that Hillary Clinton murders her enemies, mass shootings are fake, etc.) https://t.co/i0UstN3715

Politico reported that she said Muslims don't belong in government, said that black people "are held slaves to the Democratic Party," called George Soros a Nazi, and added that if she were black (she is not), she'd be proud to see confederate monuments.

If this thread is getting a bit unwieldy, fear note. Here's a lot of that stuff all in one place: https://t.co/iI6fAmlYkl

The Qongresswoman is Qrazy, but not Qommunist, I guess
