Back in 2014, when financial #education was restricted to a few, we decided to make #content accessible & affordable for all

With that resolution, in 2016 we launched #webinars with the best trainers sharing their most valuable #trading #strategies

It worked. Read why & how? -

We had the #best trainers sharing valuable strategies in 2-3 hours webinar at < ■500, it became an instant hit and there was no looking back.

Out of our 250+ #webinars, here I have handpicked the ones which has the power to change your TRADING DESTINY.

Sivakumar Jayachandran - @Justsiva123, a NISM Certified Professional for Equity Derivatives, talks about Scalping which refers to a style of trading where an #INTRADAY trader makes money purely on the #price momentum.
