An intraday pattern that usually results in a big move; Doesn't occur very frequently; If it happens, most of the time the move is big.

Intraday VCP. - U shaped Higher lows (2-5) for an upmove (usually without HHs). n shaped LHs for downmove (usually w.o. LLs

Try identifying historically this pattern; if possible take screenshots of this pattern for your record and have a look at it as much as possible to practice your eyes to spot it in real market; and if u start spotting them perfectly, u r equipped with an edge... Free of Cost....
