■ Lesson 1 - weekly /monthly breakout push stock price 30/50% higher in 2/3 weeks.

Ex- #sastasundar after breakout 145/155 zone , stocks in 2/3 weeks given 30/40% return.

And in 2/3 months it was double ■ <https://t.co/9kkc3IV4Lo>

I am going to make #priceaction breakout thread with real examples

By which u can easily find out blasting stocks.

it is only based on my experience of last 5 years

How many learners are excited \U0001f973

■Lesson 2 - if stock is making same pattern (in 2 /3hours chart) after given breakout of (weekly /monthly chart) , then chances of stock going up is much more.

Ex - #HGS after given breakout of Trendline (range) in monthly chart, again making same pattern 4 hours chart. ■

■Lesson 3- if stock never come to retest it's weekly & monthly breakout zone then the chances of it's 2x is much more.

EX - #happiestmind everytime consolidating & making new high. ■

@chartmojo

@charts_breakout

■Lesson 4 - when whole market fall still strongest stocks only consolidate or move down very little.

Ex - when this march market took correction 800/1000 points #jindalpoly just consolidating from that time.

Now ready for new high . ■

■ Lesson 5 - when market recover the strongest stocks recover very fast & will make new high.

Ex - #happiestmind when market take little correction & again bounce little , then #happiestmind made new high before market .
