@nison_steve

I follow SL for my long term positions based on weekly previous swing lows. I am out if it gets hit.

So, I am least worried in these minor dips as manier times it will give you opportunity to add more of your favorite names.

Balaji Amines -

An explanation of how trailing stop loss works. With every base formation, the stop loss level is moved up thereby locking profits. Stop-loss can be placed via GTT Orders.

Assumption - Trading on a weekly scale pic.twitter.com/hojzCilOhg
